- 21 years experience in the UK & Australia
- Editing - Drama, Children's Drama, Documentaries, Reality, Factual, Lifestyle, Sport & Music.

I have worked my way up the ranks through postproduction so I have an excellent technical understanding as well as being a fast and accurate editor. Personally, being a very dedicated worker, and working extremely well in a team. Editing is an instinct that I have finally tuned over the years. I feel I bring out the best in people when working to tight deadlines and I have a great understanding of client requirements and expectations, making my edits fun as well as productive. You will see from my credit list I work with most people more than once, hopefully that says a lot!
