

Homepage

Fixed banner image on home

8 editors displayed here on home page randomly. If filters are used is it possible to draw in other editors that fit the filters?

These are the last 5 featured works added and they link through to the individual featured work pages.

Member login in footer. Members see only their own details and Admin has all access

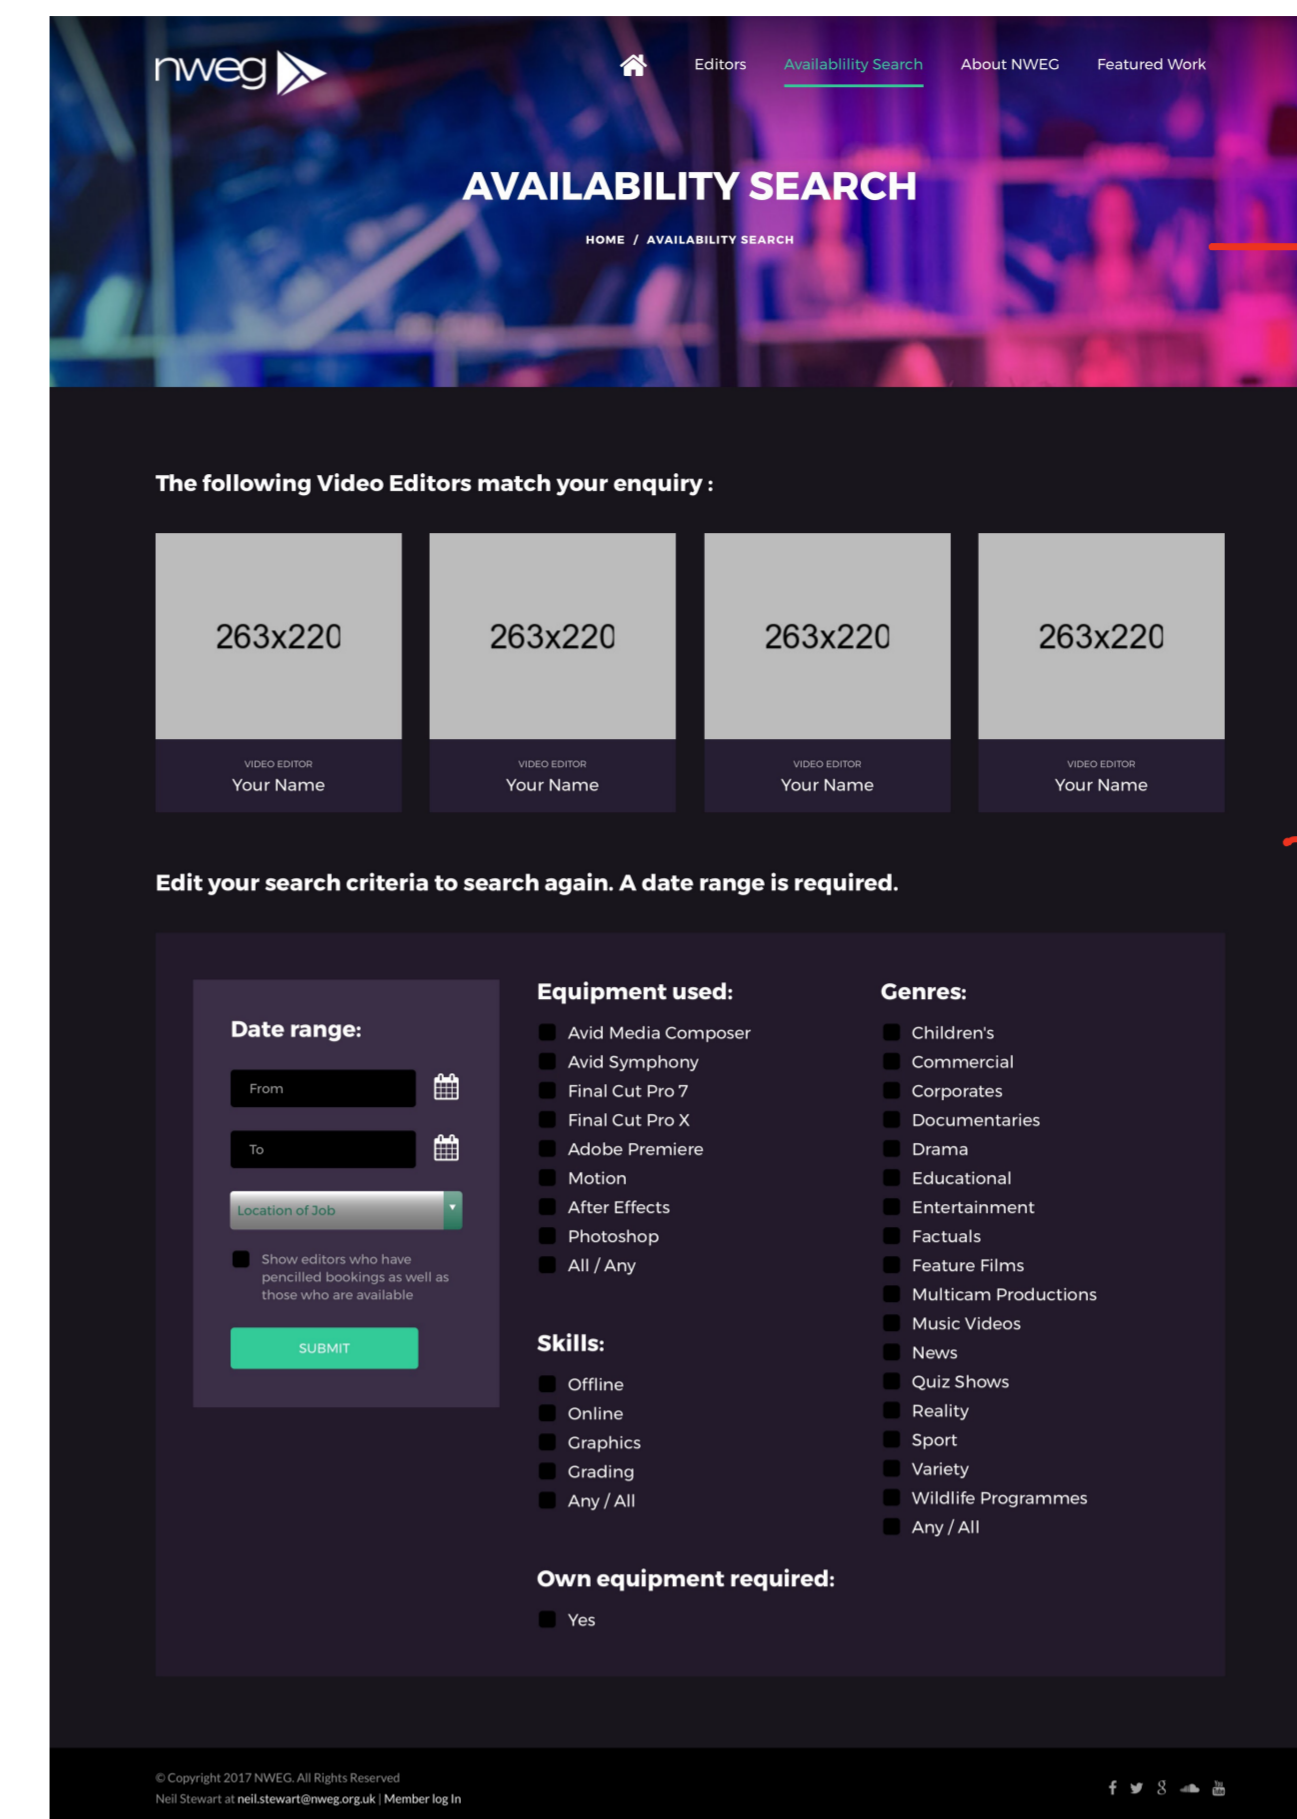

Editors page

Fixed banner image

Search by drop down list of locations as in template or by name (this could also be a drop down list from the database?)

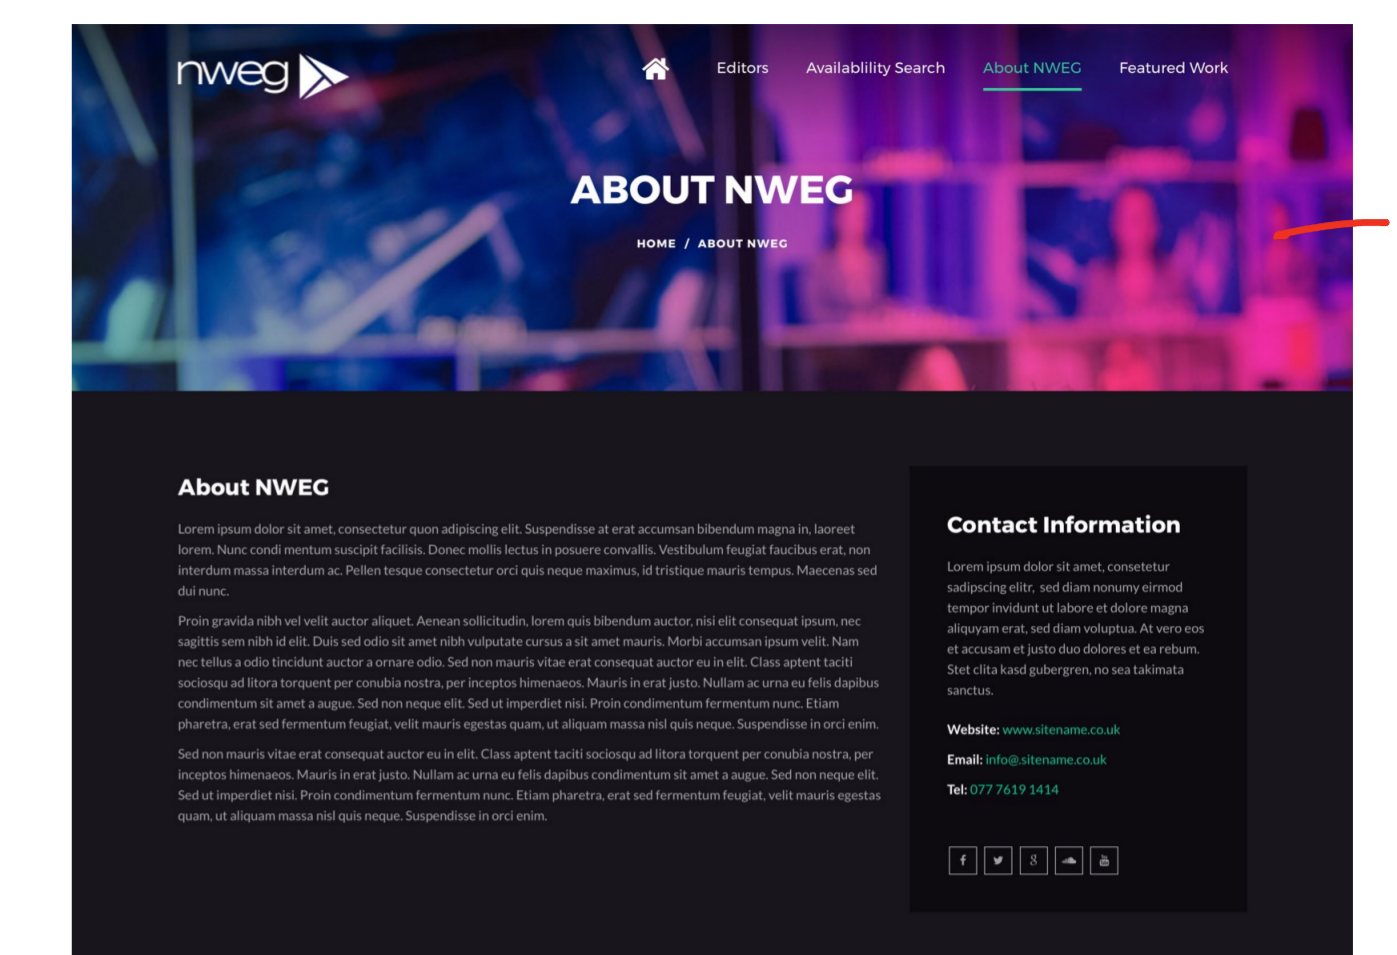

Filters as on homepage except all editors are displayed randomly on this page, not just three rows as shown here.

Search page

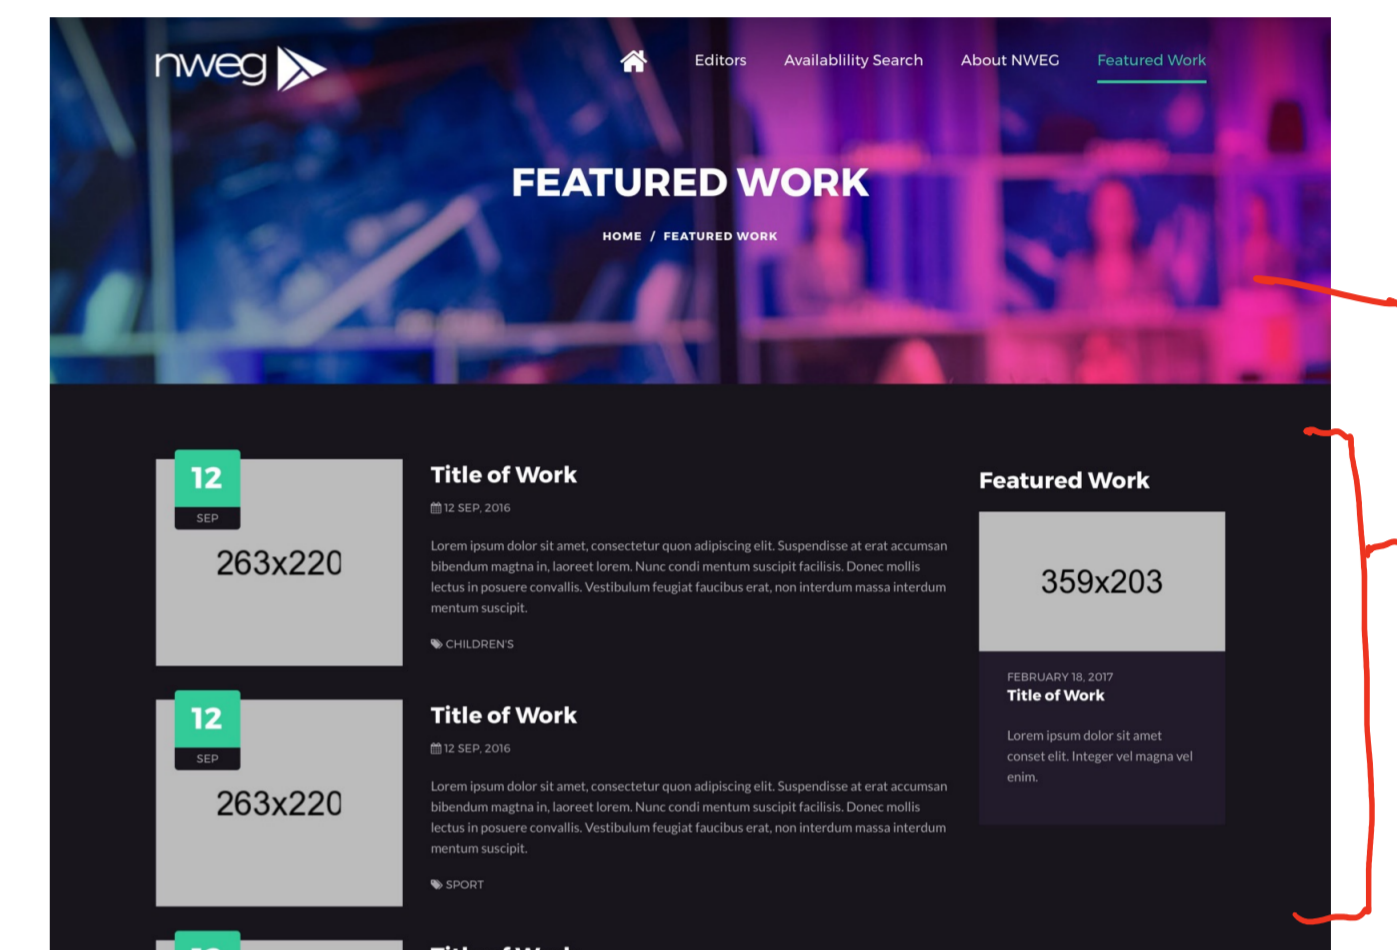

Fixed banner image

This is where editors list appears after a search. It's not here until a search has been made.

About page

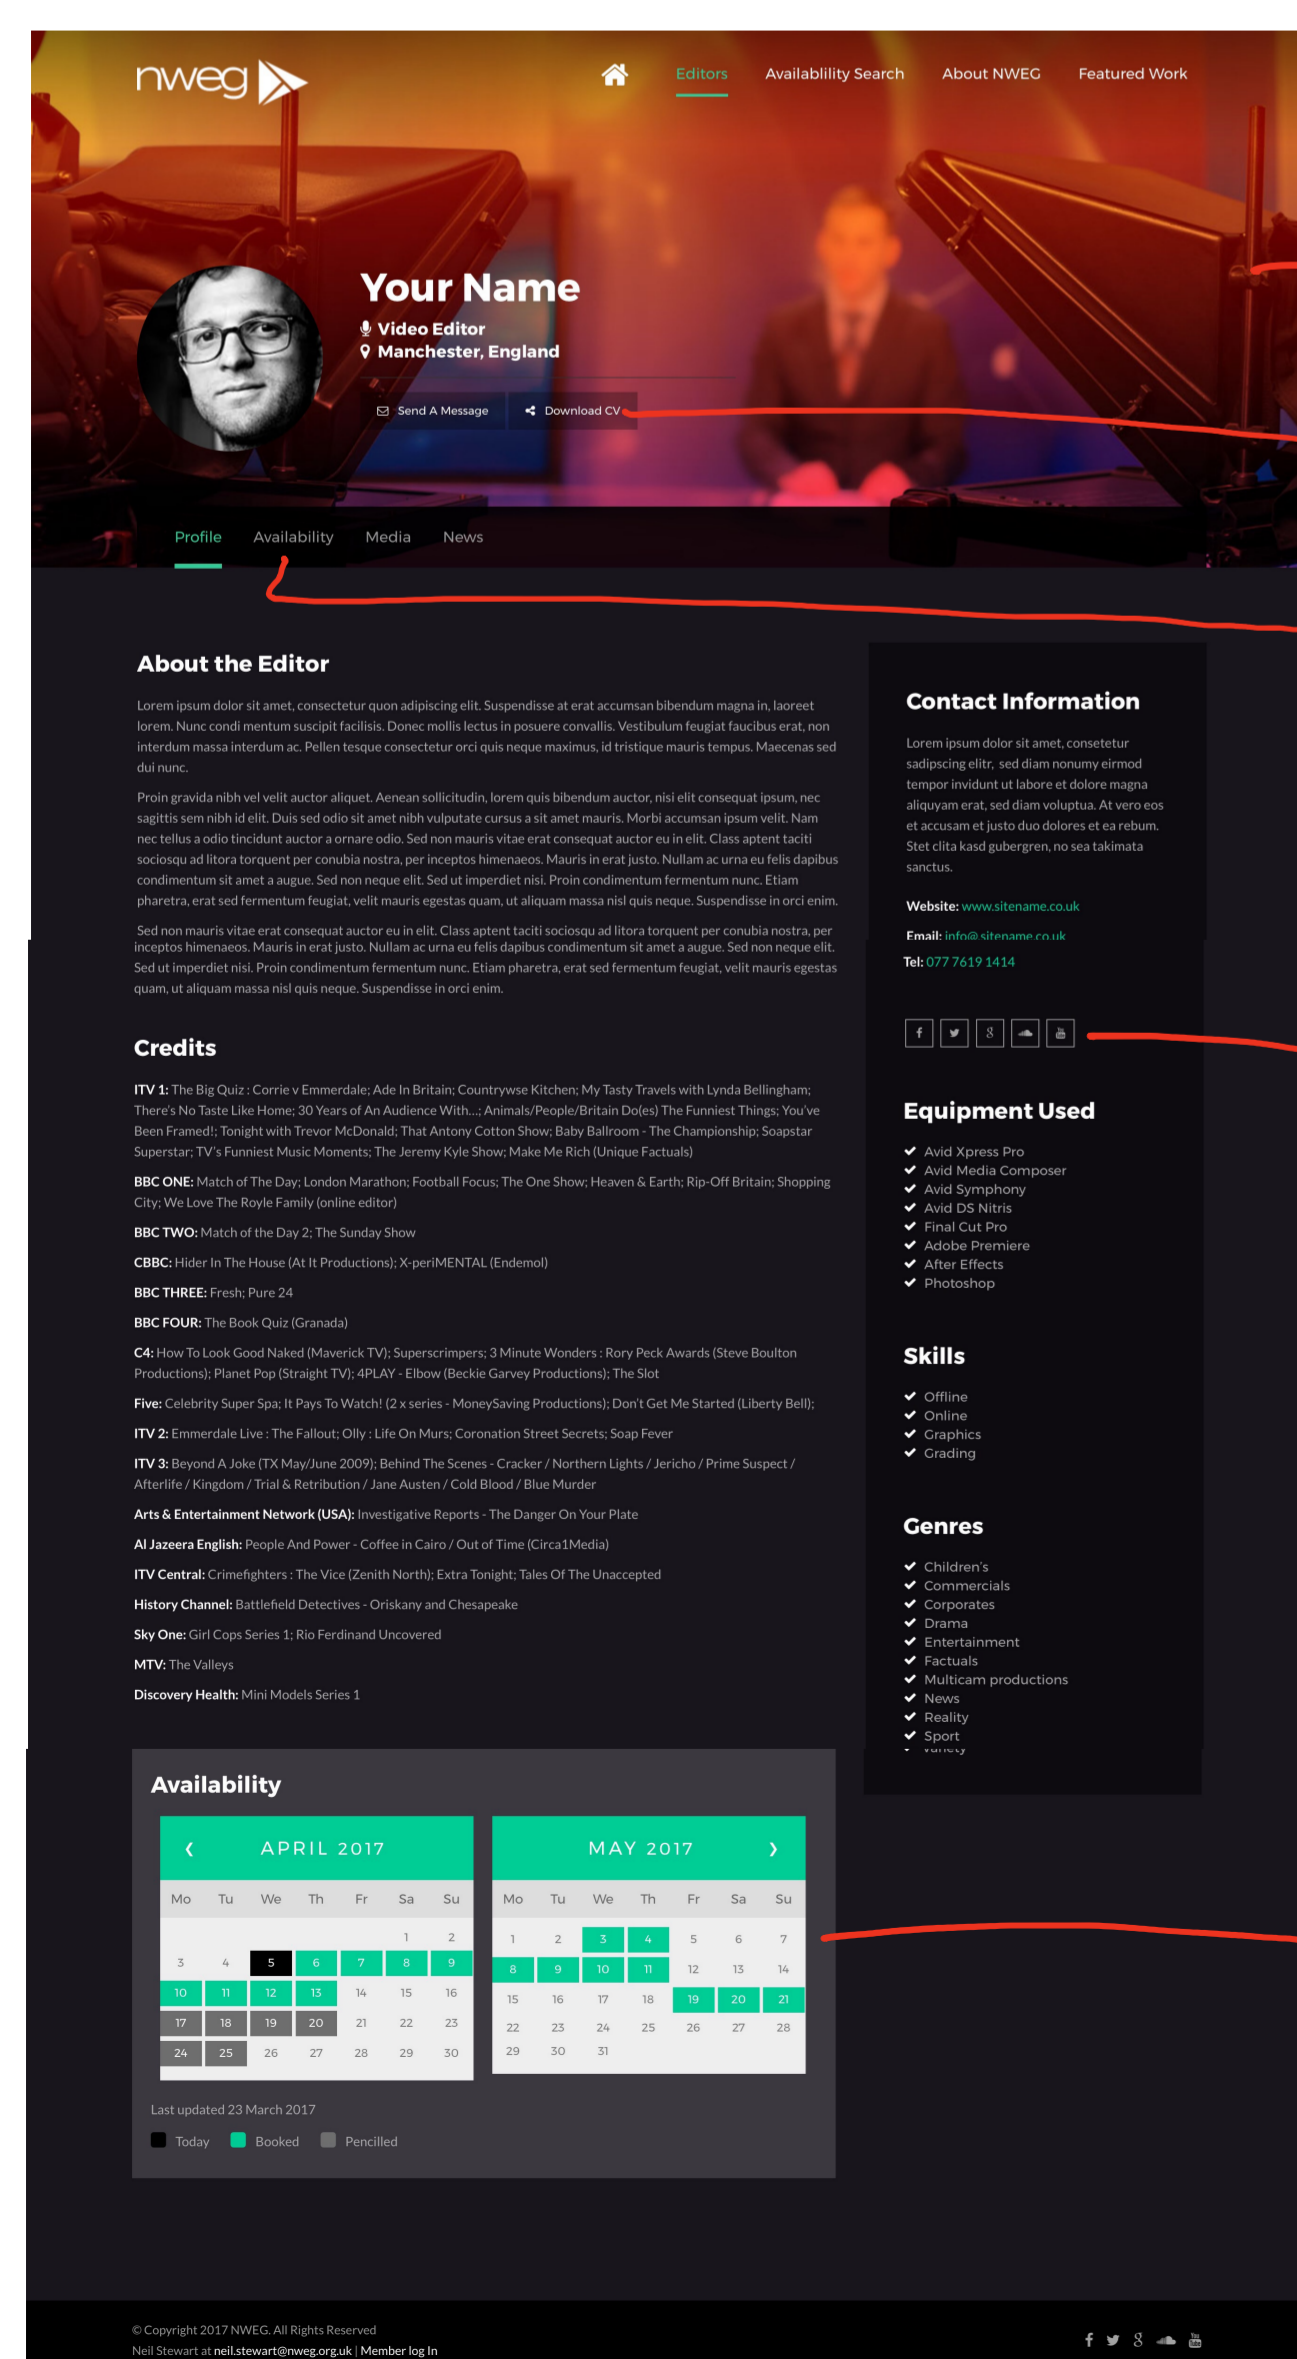

Fixed banner image

Featured work page

Fixed banner image

Featured work items open in pages based on the About NWEG page template.

Editors profile

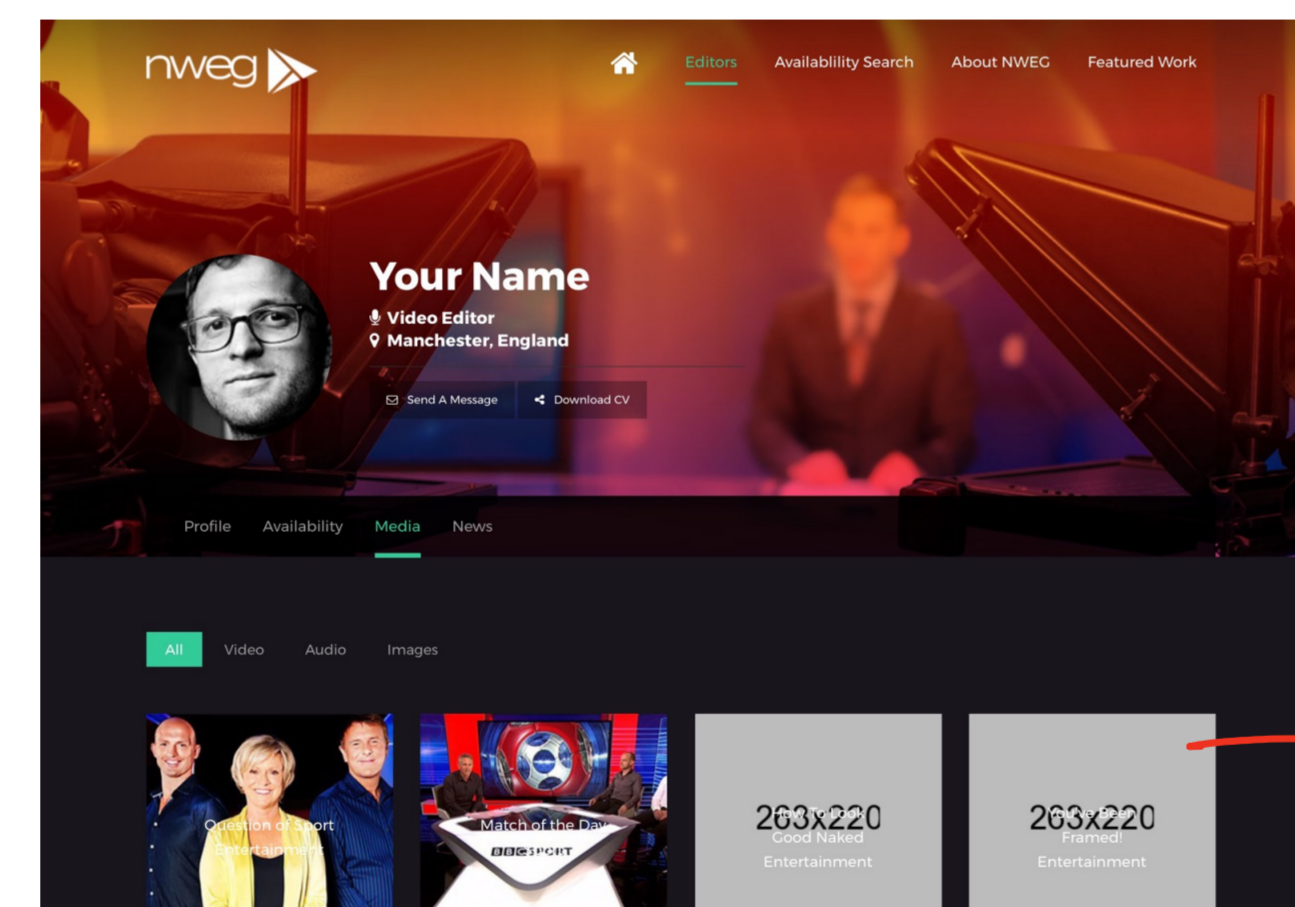

Editors can add their own banner image

'Download CV' downloads PDF of editors CV that they upload

Availability link just moves down the page to calendar at base

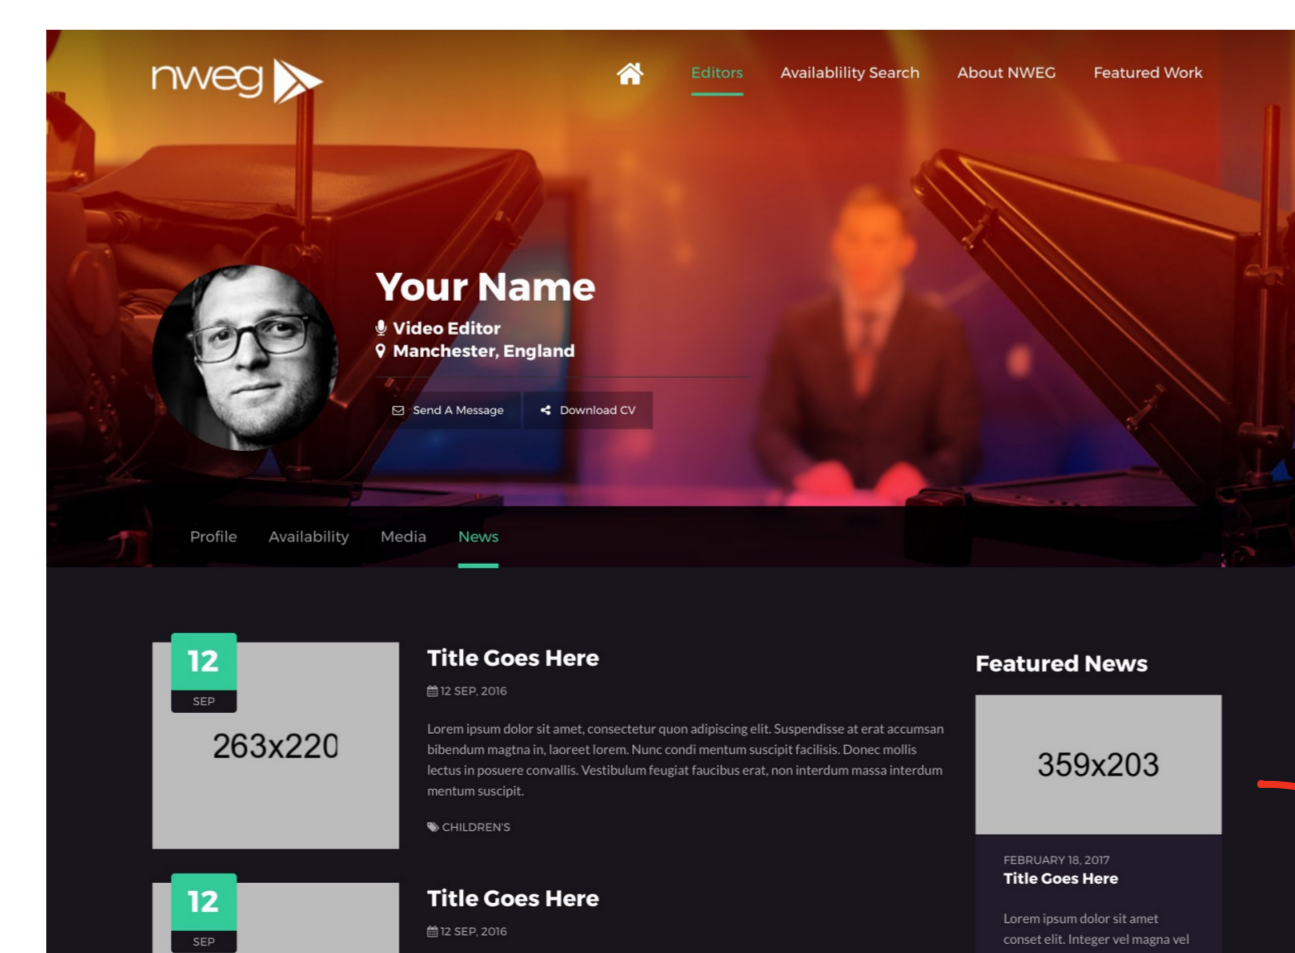

Links to editors social media channels - URL set in cms

Calendar feeds from iCal or Google calendar and is updated from these sources not on website.

Editors media page

Editors can add Vimeo and Soundcloud links or photos to appear here and can be filtered.

Editors news page

This section works the same as the Featured work page but for individuals.
