

Dave Crompton

07785 262648

davecromptontv@googlemail.com

I've worked for almost 30 years in broadcast TV
starting in world of tape conversion,
swiftly joining Avid UK in London
as a support editor based in Soho.

I then became the Northern based lead support editor
serving the entire north including Northern Ireland
the whole of Scotland installing and training
many broadcast editors from every kind of production,
film, drama, factual, sport, entertainment and music videos.

I left Avid in my early 20s and have been freelance
for almost 30 years now with barely a break working for
ITV, BBC1, BBC2, BBC3, CH4, CH5, Sky, MTV,
Paramount and NETFLIX.

I have been mainly working remotely for the past few years,
I am based within a few miles from Media City and the city Centre and have bases in both North
Wales and Kent.

I have a passion for the finer detail in both picture and music and sound finessing.
I care passionately about everything I work on and thoroughly enjoy bringing something extra
than what's normally expected using the skills I've gained over time.

As you can see from my CV,
I've cut everything from Bob the Builder to Corrie..

Credit Roll
