From Postman Pat to Panorama, Mark's long and varied career began (ahem, in the 80's) at Stefan Sergeants London based **Spitfire TV**. Working firstly as an engineer / studio camera operator and later as an editor (on tape). Having discovered the newly invented Avid, this led to a position at **Star TV** in Hong Kong as a Senior Editor, working mainly on promos and MTV. Then helping to refurbish and establish **Post Production Shop** as one of Asia's leading production houses, here as a Senior Offline Editor on sport, news and documentary.

In 1998, after a spell as a freelance back in the UK Mark arrived at **Flix**, part of then **Cosgrove Hall Films**. Here he cemented his talents as an Offline and Online Editor, Composer and VFX Artist.

Considered a consummate team player, happy to share knowledge and collaborate, Mark's attention to detail, tirelessly positive approach to problem solving, as well as his creative input and deep knowledge of the post production process have made him a much sought after editor.
