## ABOUT

*Video editing:* adding punctuation to an actor's performance, blending cinematography with music and finding pace and cohesion within a narrative to evoke a strong emotional response; it's a very rewarding process and a big passion of mine. I've developed my own fast and methodical approach to offline editing and I'm seeking opportunities to work on TV drama and film. Complementing my skills in offline is my experience as an online editor, proficient in things such as colour grading and visual effects, adding technical flair to my remit as a well-rounded editor.
