I am a film editor with 27 years experience in broadcast media. My television career began in 1993 and have been staff at ITV until Feb 2020. My editing career began in 1998 as a finishing editor in linear tape edit suites, progressing to offline craft editing soon after. I am fully involved in both storytelling film editing and online finishing, including colour grading. Recently I have ventured outside the edit suite on various directing secondments, including ITV's flagship current affairs series, Tonight.

### Key skills:

- Significant experience working at the highest level in factual, entertainment and drama productions. Helping to set visual styles for new series.
- Finishing editing to demanding creative and technical standards for UK and International broadcasters.
- Fully involved with Colour grading and File Delivery.
- Working under pressure to transmission deadlines.
